OBJECTIVE

Hello I am Annas Alghoffar usually called Annas. I was born in Jakarta, 29 September 1994. I am very interested in Programming and Technology. I am ready to learn for something new. That's why I really like working in the IT field. I also enjoy discussing and sharing some of the things I already know. Because by discussing and sharing it can strengthen what I already know and increase my knowledge.

ANNAS ALGHOFFAR

EXPERIENCE

2017 – 2018

Teaching Assistant • LepKom Univ. Gunadarma

I took part-time work at Lembaga Pengembangan dan Komputerisasi (LepKom) Gunadarma University. My job is to provide some practical materials such as Database, Java Programming and Cisco.

2018 – 2019

Software Developer • Pt Minda Perdana Indonesia

I am tasked with working on several applications or projects using Laravel for the Backend and React or JQuery for the Frontend.

2019 – Now

Software Engineer • Pt United Tractors Tbk

I am helping make an application in digitalization and differentiation division that used for service division or field work. My focus here is Front End Developer using the React Js framework.
